

# WORKSHOP INFORMATION

Date: Saturday 26th October 1991

The venue is: Stantonbury Campus  
Stantonbury  
Milton Keynes  
Buckinghamshire  
MK14 6BN

## How to get there:

**By Car:** See enclosed maps. Be sure to follow signs for "Stantonbury Campus", not just "Stantonbury"! There is plenty of free parking at the Campus - look for the "Z88" signs as you enter the Campus.

**By Bus or Rail:** Milton Keynes is served by National Buses, and has a mainline British Rail station. The bus station and railway station are adjacent to each other. Taxis are available, or you can get either a No.10 or No.6 bus from the bus station, and alight at the British Standards Institute (BSI) building, which is opposite the Campus.

## HOTELS

Below are details of several hotels near to the venue. The Map Ref refers to Ordnance Survey maps, for easy location.

The Cock                                      Tel: 0908 567733

Central Milton Keynes                        Map Ref: 853386

# WORKSHOP INFORMATION

The provisional line-up of companies attending the workshop is as follows:

Ian Braby - Software Library

Steve Marsh - Application Library

Michael Hey - CLI Library.

Cambridge Computer Ltd

Colton Software - Authors of PipeDream.

Rakewell Limited - Authors of "Z88 Magic"

Ranger Computers - Z88 hardware and software.

Richard Russell - Author of Z88 BBC BASIC.

S&S Computer Advice - Educational specialists.

Wordmongers Limited - Z88 Software specialists.

In addition, I will be there with back numbers, binders and spares for sale. Most of the Club Software Library will be there, and we will be offering EPROM erasure. Many of the above companies will have for sale and demonstration Z88 hardware and software.

Below is a provisional list of Workshop Groups which will be running on the day. These will actually be timetabled, and you will be given a schedule on arrival at the Workshop. If you can suggest another Workshop Group title which would be of general interest, or if you feel that you would like to run a Workshop group, please contact me by post before the event.

zBASE for Absolute Beginners

File Transfer

PipeDream (all day)

zBASE

Writing Z88 Applications (x4)
