4 November 1996

We apologise for this unsolicited letter (we hate them too). It is written to addressees from our files who have purchased Z88 and may wish to know where to get associated parts.

As a purchaser of a Z88 you may be interested in the peripherals shown on the back.

We still have stocks of Z88's and associated accessories and are making limited quantities of 128k, 256k RAMS, 128K EPROMS, and other items if there is sufficient demand.

We can repair faulty Z88's and can also offer a part-exchange option if you have a faulty Z88, as long as the screen and keyboard membrane are working. We would even be prepared to buy back Z88's if you have a spare.

If required we can supply Z88's with V.4 ROMS and 128K built-in RAM (the standard one has V.3 and 32k RAM). This gives you much more internal memory.

Unfortunately the Z88 User Group no longer operates, but a new one is being formed. If you are interested in subscribing to this User Group, and supporting it with news, articles etc, please tick the box on the form below and return it to us as soon as possible.

If you place an order with W.N. Richardson & Co for £50 or over as a result of this letter we will send you a protective plastic case for your Z88 worth over £10 free of charge. Simply tick the claim box on the order form.

If you are interested in software and utility programs, or alternative supplies, these can be obtained from Rakewell Ltd., 24 Putnams Drive, Aston Clinton, Aylesbury, Bucks, HP22 5HH.

Bill Richardson

ORDER / RESPONSE FORM

Please return this form to: W.N. Richardson & Co, 6 Ravensmead, Chalfont St. Peter, SL9 0NB

Your address:

Telephone: _____

Please tick as appropriate:
